The best book to get your hands on is Lafayette H. Bunnell's "Discovery of the Yosemite". Try to get an original one and not a revised version. Bunnell was the only person to meet Chief Tenaya and the original Yosemite Native Americans during the Mariposa Indian wars. In that book he documents that Chief Tenaya was the founder of the Paiute Colony of Ahwahnee, that he spoke Paiute, that his band was primarily Mono Paiute and not Miwok as has been falsely written. You see in history the ones who tend to write history are those who won it or those who helped. The Miwoks assisted the Mariposa Battalion against the original Indians of Yosemite. They were the enemies of Paiutes and not trading partners as has been falsely written. Tenaya's band and the Mono Paiutes did trade with each other, because they were both Paiute bands. That is documented in Bunnell's book, but this book is a great companion of that book.Get both.
