Milwaukee Road In Color, Volume 1: The East End: "The first in a multi-volume set that will cover the Milwaukee Road from one end to the other during the period when one could see Hiawathas propelled by everything from 4-4-2s to Bi-Polars to Erie-builts. This volume covers the territory east of the city of Milwaukee and showcases many varieties of the road's steam and diesel operations centered around the Chicago area."
