Steve Pinkham : The Mountains of Maine: Intriguing Stories Behind Their Names before purchasing it in order to gage whether or not it would be worth my time, and all praised The Mountains of Maine: Intriguing Stories Behind Their Names:

1 of 1 people found the following review helpful. The Mountains of MaineBy MsDeeMeI bought this book after meeting Steve at a show. Steve is full of knowledge of Maine and this book reflects that. Steve thoroughly researches his material and presents it in a clear, easy to read and understand format.1 of 1 people found the following review

helpful. very interesting
By CarolI found this book to be very interesting but I wish that it showed a map of just exactly where each of the special mountains are. There's a few mountains in the book that I presume are close by to our camp but not sure so a map would be helpful. But otherwise I loved reading about the history etc. of each one.
2 of 2 people found the following review helpful. Great source of local information
By T. ProctorA nice and easy reading/reference book on how the mountains and hills of Maine got their names. Great for camp or for anyone who would like to learn some history of just about every Maine mountain they could hike and explore.

How did a mountain get the name Moose's Bosom? And what's afoot with the name Toenail Ridge? Avid hiker Steve Pinkham provides informative, quirky, and sometimes downright hilarious answers to these questions. Arranged alphabetically within regions are capsule histories highlighting natural features, origins of place names, and intriguing facts and local legends. Pinkham also delivers sidebars about selected trails, towns, and other points of interest. This book includes all significant peaks and hills throughout Maine.
