book seems up to the usual standards. These books cover the more interesting attractions, including some great photos, and are organized by area, which makes it easier to select what you want to see and plan your days. Another feature which should not be overlooked is the section in the back, which recommends some excellent restaurants. 0 of 1 people found the following review helpful. National Geographic have another winner!By Jerry GuildIf you plan to buy a Guide for San Fransisco,you really owe it to yourself to check out this one.It covers everything you want in a guide and does a supurb job in all respects.First of all the construction is excellent. Nat.Geo.publish a Guide to Birds of North America,and make them so good that they are able to take a phenomenal amount of use and even abuse.Birders get daily use of them for years and I have never seen or heard of one coming apart.If anything,they are built too good-a rare thing today.If one were to use this guide every day,you would still be using it a year later.The paper,printing,color,etc.could not be better.Most travel guides are pretty ratty after a short time and you will be amazed ,that this book will stay in great shape.The detail of information could not be better.It is full of excellent photos,maps,directions,and organized very well.Of course it is excellent as a travel guide,but it will serve as well as an excellent resource to keep handy whenever you want to find information on any historical or other points of interest in the city.There are a lot of great drawings of the interior of buildings,such as the Sutro Baths,museums,Alcatraz,Early History and many neighborhoods and personalities.There is also a section on excursions,The Peninsula Silicon Valley,Monteray Peninsula,Carmel-by-the-Sea,Berkley,Oakland,Marin County,Napa Valley,Sonoma Valley,Yosemite National Park and Lake Tahoe.And of course lots of info on travel,accomodations,shopping,dining,and just about anything you'd want to know about one of the most enjoyable cities in North America.Not only will it serve you well when visiting San Francisco,but will also serve as a great way to remember it all.
