**John T. Cunningham : The New Jersey Shore** before purchasing it in order to gage whether or not it would be worth my time, and all praised The New Jersey Shore:

Great for what I neededBy BunnieI was looking for vintage pictures of the NJ shore - any postcards I found online were expensive and not quite what I wanted. Then I found this book: it has maps of several different parts of the shore, it has images that vary from groups of people enjoying the shore to images of shipwrecks and the scenery. I can't tell you if this was a good read, as I didn't read it, I was just in it for the pictures, and they were great!0 of 0 people found the following review helpful. Excellent bookBy MicheleI got one of the original printings and it is a great book. For those of you from Jersey or just looking for some of the history of the Jersey shore, this book is for you!
