Michael Middleditch : The New York Mapguide: The Essential Guide to Manhattan before purchasing it in order to gauge whether or not it would be worth my time, and all praised The New York Mapguide: The Essential Guide to Manhattan:

0 of 0 people found the following review helpful. The Best NYC Map Book By William Edward Arndt I cannot be in New York without this book. I was a bit surprised, however, to find errors in this "revised" edition. Some museums are in the wrong place, and others have changed names which have not been noted in the book. Also, it's about time for a

similar volume with the REST of Brooklyn and at least part of Queens and the Bronx.0 of 0 people found the following review helpful. Great color detailed mapsBy doylecatBought this on a recommendation. Great color detailed maps. Everything you need to know to travel around NYC. If you love maps like I do, you'll love this one.0 of 0 people found the following review helpful. Very helpful mapsBy CathyThis is really helpful. I have maps with streets and maps with subway stops but these maps just seemed to help put everything together. Very thin, so easy to take with. Written material on sites etc. I just disregarded as I felt the book was too old to use for this.

A complete pocket sized small scale map of Manhattan and its outlying areas, incorporating bus and subway routes, museum and gallery plans, as well as general places of interest and a complete street index.

Language NotesText: EnglishAbout the Author Michael Middleditch was chief cartographer at Geographia for many years. He created the Mapguides especially for Penguin, and there are three highly successful titles in the series: New York, Paris, and London. He died on Christmas Day 2012, shortly after completing this eighth edition of his famous London Mapguide.
