Helmuth Ed, Helmuth Gloria : The Passes of Colorado: An Encyclopedia of Watershed Divides (The Pruett Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Passes of Colorado: An Encyclopedia of Watershed Divides (The Pruett Series):

0 of 0 people found the following review helpful. Highly recommended. By Robert W. Audretsch Well over 460 passes in CO with basic information such as location and a brief history. Well done! 3 of 3 people found the following review

helpful. Great for Mountain Biking By R. Sauve I am an avid cyclist. I use this book along with maps to select my mountain biking routes. Additionally, the historical information provided is wonderful.

An authoritative reference work listing every known watershed divide in Colorado, including geographic location, historic import, general accessibility, past use, and related events. An invaluable index for climbers, sojourners, researchers, and armchair explorers. Photos and maps, index, appendices, bibliography.
