Gregory M. Franzwa : The Santa Fe Trail Revisited before purchasing it in order to gage whether or not it would be worth my time, and all praised The Santa Fe Trail Revisited:

0 of 0 people found the following review helpful. Five StarsBy Longtime editorCondition a bit better than described.2 of 2 people found the following review helpful. I predict an uptick in the popularity of the Santa Fe Trail as its 200th anniversary approaches (2021)By Daniel EstesIn my previous review for Marc Simmons' Following the Santa Fe Trail, published in 1986, I wondered what other guides have since come out. As it turns out, there are several. A few years later in 1989, Gregory Franzwa, a trail scholar in a similar fashion as Simmons, published this comprehensive version.The Santa Fe Trail Revisited has everything you need to know and more to get the most out of a modern day excursion down the Old Santa Fe Trail. This book is nearing three decades old so some of the information will be dated, but a smart traveler should know which parts to update. (Here I'm thinking about the sections of the trail still residing on privately owned land.)

This is a wonderful book on the Santa Fe Trail!
