The Hamptons for real.By walter marksThis a marvelous collection of photographs which show the real Hamptons not just the "Life Styles of the Rich and Famous" Hamptons, but the true variety of lives, life styles, and environments that make the East End of Long Island the magical place it is. As a longtime resident of East Hampton and an ardent walker, I have strolled and hiked many of the roads, beaches, woods, and State Parks that make up the area. Happily, "These Hamptons" showed me a lot about life out here that I wasn't familiar with. The photography is skillful and the layout of the book is thoughtfully done. This book will have a permanent place on my coffee table.0 of 0 people found the following review helpful. Amazing!By TimmyverdeThis is such a fun portrayal of the hamptons and all it encompasses. The use of media keeps the images fresh and new. Every page is different and exciting. It really grabs the spirit of the hamptons and puts it all together in a beautifully laid out book. Definitely one for the coffee table!
